

## Here comes Christmas greetings 2023 from us!

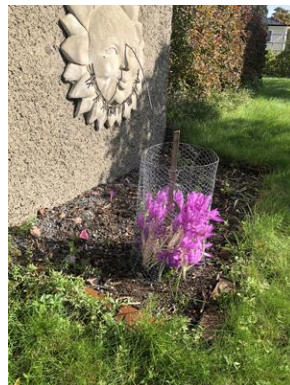

In the spring it is important to keep the deer out if we want to see the spring flowers. Compost grids help us to enjoy the splendour of colours.

In spring, the leaves of autumn crocus (*Colchicum autumnale*) appear at the same time as the tulips. The leaves look almost like those of tulips but without flowers.

At the end of September, the flowers of autumn crocus appear – then without leaves. They require a little support so that the flowers don't fall to the ground.

For Easter, as usual, there is a gathering for egg rolling. An egg is sent away and the item that is hit first you have won.

Tiiu, Lotta and Mimmi were dressed for Easter!

At the beginning of May, there was a meeting in Uppsala with classmates. We celebrated that it was 60 years since we graduated from high school.

The annual meeting with Nordic Motorhome Club took place the west coast in south Sweden.

We celebrated Tiis' 80th birthday in Grisslehamn with children and grandchildren.

We like to have afternoon coffee under the apple tree.

Also this year we have baked small gingerbread houses to put on a cup or hung on the Christmas tree.

As usual in September, we participated in the Elmia fair in the company of Nordic Motorhome Club members.
